Twelve Years Later

Dear Mr. Weisberg,

I have been an admirer of your writings on political assassinations, and wish to correspond with you on certain points, as well as purchase from you some volumes of your work not commercially available.

I have copies of both Whitewash I and Frame Up, and would greatly like copies of Whitewash II, III+IV, Oswald in New Orleans, and Post Mortem. If you could quote me a price for the books, I'll gladly send out a money order.

I'm curious to get your feelings on the possibilities of a re-opening of the investigations of all the killings, at this time given the shake ups in the intelligence community.

What is your opinion about the "Oswald letter" which the FBI recently disclosed was purposly destroyed in the days after the killing.

How do you think the recent FBI revelations that Martin Luther King should kill himself or be discredited will affect James Earl Ray's bid for a new trial?

I would appreciate hearing from you soon, if you can spare the time. Keep up the good work

Sincerely Yours,

Mark S. Tomeo
